Become a CMA® and accelerate your career and earning potential as a financial professional.

The CMA is the globally recognized, advanced-level credential appropriate for accountants and financial professionals. Achieving the CMA demonstrates your professional expertise in financial planning, analysis, control, decision support, and professional ethics—skills that are in demand by organizations around the world.

Professionals who hold the CMA credential on average earn $34,000 more in annual total compensation than their noncertified peers.* Whether you want to enhance the value you bring to your current position, or expand your career potential, the CMA will help you set the standard for professional excellence.

Candidates for the CMA Exam
You may sit for Parts 1 & 2 in any order and must complete the first exam within 12 months of entering the CMA program. Both exams must be completed within 3 years.

Prepare Now for the CMA Examination
UCLA Extension offers two instructor-led CMA exam prep courses to help fully prepare financial professionals for the CMA® examination. The centerpiece of our offering is the IMA’s Wiley CMA Learning System, a comprehensive program that includes textbooks and online practice tests. This approach combines printed materials and online components, supplemented with the instructor’s expertise and the discipline of a classroom setting.

While the primary focus of these courses is to prepare individuals for the CMA exam, they also are an excellent professional development tool for helping individuals advance their career in accounting, finance, or business management.

Available Discounts
Discounts are available to students officially enrolled in UCLA Extension’s Accounting or Finance Certificates, IMA members, and employers who enroll three or more employees. Early enrollment discounts also are available.

“The CMA has given me a tremendous amount of value. Not just on the financial end of things, but because I’ve gained broad-based accounting knowledge. I’ve been able to advance my career because that knowledge translates into benefits for the companies I work for.”

–Tammy Drescher, CMA, Senior Cost Accountant, Diamond Foods, Inc.
